Full-Stack Developer

CAREER OBJECTIVE

Motivated and skilled Full-Stack Developer looking to use my web development knowledge to build useful, user-friendly applications. I enjoy working as part of a team and am eager to learn and grow in a role where I can improve my skills and help create high-quality projects. I aim to bring my technical abilities and project management experience to make a positive impact.

Core Competencies

- Software Development
- Problem-Solving Ability
- Project Management
- Attention to Detail
- Team Collaboration
- Time Management

Technical Knowledge

Programming Languages: PHP, JavaScript, HTML/CSS

Database: SQL, MySQL

Software Development Practices (SDLC): Scrum, Agile

Other Tools: MS Office (Word, Excel, PowerPoint), Git (Version Control Systems)

Experiences

Projects:

1) Scentify

eCommerce Website for Perfumes

Developed a fully functional eCommerce platform dedicated to perfumes and implementing a user-friendly interface. Scentify enables users to browse, add, and manage products in their shopping cart, with seamless database integration.

Technologies used:

Frontend: HTML, CSS, JavaScript, Bootstrap

Backend: PHP, MySQL

Key features: Product listing, cart functionality, user authentication, and product management.

2) MoveMaze

Interactive Movie Services Platform

Developed a platform that connects users with a comprehensive movie browsing experience. MoveMaze enables users to explore, save, and manage their favorite movies, offering a smooth and intuitive user interface focused on easy navigation and functionality. Designed to help users conveniently create and maintain their personalized movie lists.

Technologies used:

HTML, CSS, JavaScript, Bootstrap, Local Storage, API Integration
